

Kajetan Enge - CV

Information

Address Elisabethstraße 4, 8010 Graz, Austria
Place of birth Graz, Austria
e-mail kajetan@enge.at
mobile phone +43 664 5049021

Education

10/2016 - 04/2020 **Masters's Degree Programme: Electrical Engineering and Audio Engineering,**
University of Music and Performing Arts Graz and University of Technology Graz.
10/2012 – 09/2016 **Bachelor's Degree Programme: Electrical Engineering and Audio Engineering,**
University of Music and Performing Arts Graz and University of Technology Graz.
09/2001 – 07/2011 **Grammar school, BG/BRG Kirchengasse, Graz.**

Academic projects

since 03/2019 **Master Thesis**, granted with a scholarship of the Austrian Federal Economic Chamber.
"Listening experiment on the plausibility of acoustic modeling in virtual reality"
03/2017 - 06/2017 **Audio Engineering project.**
"Improving aural awareness via soundscape composition"
03/2015 - 06/2015 **Bachelor thesis.**
"Acoustic image distortions during the ambisonic reproduction of eigenmike recordings. Representation by means of a 3D audio and video installation."

Work experience (excerpt)

since 08/2008 **Project Manager / Artist assistant, La Strada Graz - International festival of street art, puppet theatre, new circus, and community art.**
since 09/2015 **Stage Manager, Arsonore - International Chamber Music Festival Graz.**
since 09/2015 **Sound and Light Engineer, Cirque Noel Graz - Festival for Contemporary Circus.**
11/2017 - 11/2019 **Noise Acoustician, Dr. Pfeiler civil engineering office, Graz.**
11/2016 - 11/2018 **Student Assistant, Institute of Electronic Music and Acoustics at the University of Music and Performing Arts Graz.**
09/2011 - 05/2012 **Civil Servant, Assistance for handicapped people.**

Skills

Software Matlab, Reaper, Unity,....
Languages German (mother tongue), English (fluent), French (basic understandig).

Conference Participation

- 04/2019 **Urban Sound Symposium**, *Ghent - Belgium*, participation in the "Soundscape Hackathon".
- 03/2020 **DAGA**, *Hannover - Germany*, Paper: "Listening experiment on the plausibility of audiovisual models in virtual reality".

Personally initiated projects & artistic projects

- 09/2019 **Instant36**, 2nd prize at an Austrian ad-hoc film festival. In this festival, participants had 36 hours to create a short film on a given topic. In our case the topic was "being off track" - we did a moving video projection in the city and filmed it. The film is available in strong Austrian accent on Youtube.
https://www.youtube.com/watch?v=88iz_5YH7E0.
- since 2014 **Some Species of Fish**, In 2014 I founded a Pop/Rock Band called "Some Species of Fish" in which I play the drums. We released two EPs in 2016 and one LP in 2019. We recorded in Austria, in Italy and the UK and also played a show in London in 2016. In late 2019 we released our first music video, which I also directed.
<https://www.youtube.com/watch?v=qAFcR2KI20M>.
- since 2012 **Audio for movies**, When I started my studies I also started doing sound for several low budget independent movies. An example of them can be seen on Vimeo.
<https://vimeo.com/270859393>.
- since 2015 **Acoustic ecology**, Within the context of acoustic ecology I became interested in doing various audio field recordings myself. In acoustic ecology, people think about the relation between humans and their sounding environment i.e. how they interact with each other. I did a project on the different acoustic environments in La Paz in Bolivia. Video documentation of this project can be seen on Youtube.
